D-Link® FOR BUSINESS

D-Link Business Solutions Product Guide also available
D-Link, one of the world leading networking company, has been continuously enhance our wifi devices with the latest wifi technology together with the security enhancement and best wifi using experience to our customer.

With the explosion in popularity of smart home devices and intensive streaming media services, whole-house Wi-Fi coverage has become a must. Many of the latest wireless routers can provide strong coverage to most rooms of a typical medium-size house, but larger homes and dwellings with dense walls, multiple floors, metal and concrete substructures, and other structural impediments may require additional components to bring Wi-Fi to areas that the router can’t reach. D-Link, the first networking company that introducing the COVR WIFI Mesh System to consumer market.

D-Link COVR Mesh Wi-Fi System is Designed to blanket your home with wireless coverage, Wi-Fi systems are a hybrid of sorts, made up of several networking components. There’s a main router that connects directly to your modem, and a series of satellite modules, or nodes, that you place throughout your house. They are all part of a single wireless network, and share the same SSID and password. Each node serves as a hop point for other nodes in the system. This helps the nodes farthest from the router to deliver a strong Wi-Fi signal as they are talking to other nodes and at the same time allow user to roam from one point to another point without wifi disconnection and still give user a “full bar” seamless surfing experience.

YOUR TOTAL WHOLE HOME MESH WIFI

The COVR-3902 Covr Mesh WiFi System is a revolutionary seamless wireless networking solution comprised of a AC2600 Wi-Fi Router (COVR-2600R) and AC1300 Wi-Fi Range Extender (COVR-1300E). The Covr Mesh Wi-Fi System uses a High-Power Wi-Fi Router at its core to offer blazing fast Wi-Fi. While the Covr Seamless Extender takes care of the outer edge. Automatically connect to the strongest signal as you move through your home for up to 6,000 sq. ft of seamless whole home coverage. With the COVR-3902, D-Link has got you Covr’d.

**Simple. Yet Flexible.**

The best part? It’s flexible enough to cover most housing types. From 1-storey apartments to 4-storey houses, and basements to back decks, Covr’s got you covered.

---

**Coverage**

- 550 Sqm / 6000 Sqft (2packs)
- 465 Sqm / 5000 Sqft (3packs)
- 550 Sqm / 6000 Sqft
- 450 Sqm / 4800 Sqft
The AC5300 Ultra Wi-Fi Router brings speeds up to 5.3Gbps, Smart Connect Technology, a 1.4GHz processor and 8 antennas for maximum coverage. The extraordinary and powerful Wi-Fi experience is brought about by the Tri-Band technology to connect to each device for maximum speed, as well as the Smart Connect Technology for optimal Wi-Fi allocation for each device. And also it comes loaded with a Powerful 1.4GHz processor to support all devices and apps.

**ADDITIONAL FEATURES**

- **Intelligent QoS**
  Traffic optimization delivers seamless performance for your applications.
- **Intuitive UI**
  Controlling your network is easier than ever with our simple user interface.
- **High Power Antennas**
  Maximum coverage throughout your home.
- **mydlink™ Cloud**
  Monitor your network from any PC, smartphone, or tablet.
- **USB 3.0**
  Up to 10x faster than USB 2.0.
- **Easy Setup**
  Easy installation with web-based setup wizard or Quick Router Setup (QRS) app.

**THE ULTIMATE ROUTER FOR HD STREAMING AND GAMING**

- **1.4GHz Dual Core Processor**
  Faster processing power for supporting apps.
- **4x4**
  4x4 Data Streams
  Supports 4 simultaneous data streams for increased throughput.
- **MU-MIMO Technology**
  High bandwidth Wi-Fi signal to multiple devices at the same time.
- **USB 2.0 Port**
  Share a printer.
- **USB 3.0 Port**
  Share media from a USB storage device.
- **WPS Button**
  One button setup.
- **4 Gigabit LAN Ports**
  Connects up to 4 wired devices.
- **Internet Port**
  Plug your Internet cable in here.
- **Router/Extender Button**
  Select between router or extender mode.

*Future Firmware Upgrade.

**CONNECTIVITY | DIR-895L**

**WIRELESS AC5300**

IEEE 802.11ac and Tri Band – High Transfer Rate
- 2 x 5GHz + 1 x 2.4GHz radios up to 5300Mbps
- Universal Serial Bus 3.0 – SuperSpeed
  - Speed up to 10x faster than 2.0.

**Easy Setup**
- QRS APP support easy installation by iOS and Android devices.

**Easy Share**
- mydlink™ SharePort™ Mobile APP supports file sharing

**Easy management**
- mydlink™ app & cloud service for web remote management.

**TRI-BAND FOR THE ENTIRE FAMILY**

The DIR-895L delivers breakthrough Tri-Band Wi-Fi technology with amazing combined wireless speeds of up to 5,332Mbps (1,000 Mbps in 2.4GHz + 2,166 Mbps in 5GHz + 2,166 Mbps in 5GHz). Thanks to 4x4 data streams that can be combined through beamforming and MU-MIMO technology to increase reliability and range.

**ULTIMATE GAMING & 4K STREAMING**

NitroQAM™ Technology - Seamless Wi-Fi Experience
With NitroQAM™ (1024-QAM) Technology on the DIR-895L, smooth streaming and low-latency online gaming are no longer a legend. Delivering a combine wireless speed of 5,332 Mbps, you get the ultimate experience you ever need to have in a heated online gaming experience or live music concert in 4K/UHD.

**SMART CONNECT & HOME BEAM FORMING**

Not all Wi-Fi bands are the same, but you don’t need to worry about that. With Smart Connect Technology, the ULTRA Wi-Fi Router chooses from the three Wi-Fi bands and automatically connects each device to the best and less congested band for optimal wireless experience.

Smart Beam Forming
Not all routers are the same, DIR-895L are in-built with Smart Beam forming technology which will focus its wireless signal toward the connected clients ensuring better coverage and lesser interference. This mean that user will enjoy a better and lag free streaming and entertainment in their home.
Wireless Routers

D-Link has a range of Wireless Routers to meet your everyday needs for home and small business. Connect a Wireless Router to your existing Fiber, Cable or DSL Modem to create a secure wireless network to share your Internet connection. It can also share photos, files, music, video, printers, network storage and many more throughout your home or office.

Get Wireless AC, the newest generation of Wi-Fi technology to bring ultra-fast speeds to your wireless network.

### Quick Tip
Do you know that repositioning your WiFi Router can help to optimize your WiFi Coverage?

**Poor Placement of Router**: Location is not central to wireless network. Too many walls, floors, heavy furniture and electronic equipment (which may cause interference) intervening, may result in weak or lost signal.

**Optional Placement of Router**: Location is central to wireless network. Intervening walls, floors, and heavy furniture are minimized, electronic equipment (which may cause interference) is moved, allowing the maximum signal.

Keeping Your Smart Home Safer

AC2600 WiFi Security Router

Your smart home is getting smarter every day. But is it getting safer? With more smart home IoT devices than ever before, every connected device becomes a potential security threat.

Make your smart home safer with D-Link AC2600 Wi-Fi Router

Key Features:
- Comprehensive Security Made Simple with world-class McAfee Secure Home Platform
- High-speed Dual-band AC2600, 4x4, MU-MIMO Wi-Fi
- End-to-end protection for IoT devices with Prevent, Detect & Correct mechanism
- Comprehensive Parental Controls
- Cloud-based machine learning protects in real-time
D-Link Makes Your Home Safer with AC2600 Security WiFi Router

- Quick Vulnerability Scans
  - Detects Botnets, Malware, and other threats
  - Checks new devices connected to the network
  - IoT anomaly detection
  - IoT fingerprinting
  - Periodic IoT vulnerability probes
- Pause/Block, Isolate devices
- Terminate malicious connections
- Safe browsing blocks access to malicious websites

DIR-2680 WORKS WITH Alexa

- Voice Assistant Support
- Automatic protection with full control from your mobile app

DIR-2680

Wireless AC2600 Dual Band a Security Router

- Dual Band Wireless AC2600 Technology
- Dedicated Gigabit WAN port
- 3 x Gigabit LAN Ports
- USB 3.0 Ports for Storage, File Sharing or Printing
- D-Fend (McAfee) Supported
- Super Mesh Supported
- VPN Server
- Advanced AC SmartBeam for optimised Wi-Fi coverage

McAfee GLOBAL THREAT INTELLIGENCE

- Quick Vulnerability Scans
- Detects Botnets, Malware, and other threats
- Checks new devices connected to the network
- IoT anomaly detection
- IoT fingerprinting
- Periodic IoT vulnerability probes
- Pause/Block, Isolate devices
- Terminate malicious connections
- Safe browsing blocks access to malicious websites

Evolve Your Router To The Next Level

- **Dual Band** AC2600/AC1300
- **Gigabit Connectivity**
- **MU-MIMO**
- **McAfee Secure Home Platform**
- **Voice Assistant Support**
- **WiFi Mesh Supported**
- **Protects All Connected Devices**
- **IOT Device Protection**
- **Cloud Based New Threat Learning**

**Designed For Maximum Performance And Security.**

The AC2600/AC1300 Wi-Fi Gigabit Router (DIR-2660 and DIR-1360) combines ultra fast next generation Wi-Fi with Gigabit Ethernet and powerful processor for an enhanced 4K streaming, gaming experience and even safe-guard all your internet activity with latest security engine that powered by McAfee, with the advance cloud based new threat learning, you can trust D-Link to protects all your devices are safe from virus, hacker and malicious attack, which give you a peace of mind on your home network and IOT devices.

Aside from the outstanding performance and security, D-Link DIR-2660 and DIR-1360 also equipped with the latest **D-Link WiFi Mesh** capability, user can get additional multiple D-Link WiFi Mesh enabled Access point\(^a\) to create a seamless wireless network to extend and blanket bigger home with high speed wireless signal.

Smart, Speed & Secure...We got you home covered with D-Link.

**Wireless N150 Router**
- Wireless N150 Technology
- Dedicated 10/100 WAN port
- 4 x 10/100 LAN Ports
- Universal Range Extender works with any brand device

* Available in future firmware upgrade.
Extend Your Network Easily with WiFi Extender & PLC

There's nothing more annoying than having parts of your home where your Wi-Fi won’t reach. Well, those days are gone, thanks to D-Link Total Home Solutions. From “Plug and Play” D-Link PowerLine adapter to “simple one touch setup” D-Link Wireless Extender, we have everything you need to quickly, easily and securely start enjoying the internet in every corner in your house.

Choose the smart way to extend your home network, choose D-Link.
Eliminate Wi-Fi Dead Spots with D-Link Power Line and Range Extenders

The affordable and compact way to extend your Wi-Fi coverage for improved connectivity throughout your home.

UNDERSTANDING DIFFERENT OPERATION MODES

**Access Point Mode**
- Access Point mode allows the device to act as a central hub for wireless users, giving them access to your existing wired network.
- Connect the DAP-1665 or DAP-1360 to an existing wired network and easily enable wireless connectivity in your home.
- Use your new wireless network to stream HD multimedia content, play multi-player games, or make Internet phone calls (VoIP).

**Range Extender Mode**
- Range Extender mode extends wireless coverage of your existing wireless network to cover “dead” spots and reach further into your home or office.
- Ideal for customers with bigger homes or offices, environments where structural interferences occur with wireless signals (i.e. brick homes), and double storey homes that have longer distances to cover.

MORE AMPLE COVERAGE WITH SEAMLESS MESH WIFI EXTENDER

Need more wifi coverage than usual? The New D-Link GEN II MESH WIFI extender solution, DRA-1360/DRA-2060 AC1300/AC2000 Wi-Fi Mesh Range Extender will do the job! DRA-1360/DRA-2060 is a portable, plug-in Mesh Wifi range extender that lets you extend an existing wireless network even further than conventional single Wifi Repeater with the new Mesh wifi capability integrated. You can now place multiple units anywhere in your home to further increase the range of your wireless network and start enjoying uninterrupted seamless surfing experience.

What you need is a D-Link MESH WIFI enabled router and multiple units of MESH WIFI Range extender to blanket larger area with simple setup. Says “NO” to endless buffering & WIFI Deadspot!

Smarter WiFi with a Single Network

Fast, reliable roaming for a seamless connection while you move around your home. No hassle with switching SSIDs (network name). The WiFi extender uses the same SSID and automatically switch intelligently.

* Supports D-Link WIFI Mesh Router

| DRA-1360 | Wireless AC1300 Dual Band Mesh WiFi Range Extender | - Dual Band Wireless AC1300 Technology  
- Universal Range Extender works with any brand device and supports MESH WiFi with D-Link MESH Router*  
- Supports AP SON (AP Self Organized Network)  
- Gigabit LAN Port  
- 2 x 2 MIMO Antenna configuration  
- Wall plug design for more convenience  
- One touch configuration  
- Multiple operation mode: Range Extender or Access Point  
- Smart Signal LEDs  
- WiFi MESH only works with D-Link WiFi MESH Router  
- Auto firmware upgrade |
| DRA-2060 | Wireless AC2000 Dual Band Mesh WiFi Range Extender | -Dual Band Wireless AC2000 Technology  
- Universal Range Extender works with any brand device and supports MESH WiFi with D-Link MESH Router*  
- Supports AP SON (AP Self Organized Network)  
- Gigabit LAN Port  
- 2 x 2 MIMO Antenna configuration  
- Wall plug design for more convenience  
- One touch configuration  
- Multiple operation mode: Range Extender or Access Point  
- Smart Signal LEDs  
- WiFi MESH only works with D-Link WiFi MESH Router  
- Auto firmware upgrade |
| DAP-1860 | Wireless AC2600 Dual Band Range Extender | - Dual Band Wireless AC2600 Technology  
- Gigabit LAN Port  
- 4 x 4 MIMO Antenna configuration  
- Universal Range Extender works with any brand device  
- Wall plug design for more convenience  
- One touch configuration  
- Smart Signal LEDs for best Extender location  
- Multiple Operation Mode: WiFi Extender or Access Point  
- Support MU-MIMO |
| DAP-1720 | Wireless AC1750 Dual Band Range Extender | - Dual Band Wireless AC1750 Technology  
- Universal Range Extender works with any brand device  
- Gigabit LAN Port  
- 3 x 3 MIMO Antenna configuration  
- Wall plug design for more convenience  
- One touch configuration  
- Multiple operation mode: Range Extender or Access Point  
- Smart Signal LEDs |
| DAP-1620 | Wireless AC1200 Dual Band Range Extender | - Wireless AC1200 Technology  
- Universal Range Extender works with any brand device  
- Gigabit LAN Port  
- Wall plug design for more convenience  
- One touch configuration  
- Multiple operation mode: Range Extender or Access Point  
- Support MU-MIMO  
- Signal indicator LED |
| DAP-1610 | Wireless AC1200 Dual Band Range Extender | - Wireless AC1200 Technology  
- Universal Range Extender works with any brand device  
- 10/100 Mbps Ethernet LAN port  
- Wall plug design for more convenience  
- One touch configuration  
- Multiple operation mode: Range Extender or Access Point  
- Support MU-MIMO  
- Signal indicator LED |
DAP-1530
*Wireless AC750 Dual Band Range Extender*
- Dual Band Wireless AC750 Technology
- Universal Range Extender works with any brand device
- Wall plug design for more convenience
- One touch configuration
- Multiple operation mode: WiFi Extender or Access Point
- 10/100 Mbps Ethernet LAN port
- Signal indicator LED

DAP-1325
*Wireless N300 Range Extender*
- Wireless N300 Technology
- Universal Range Extender works with any brand device
- 10/100 Mbps Ethernet LAN port
- Wall plug design for more convenience
- One touch configuration
- Multiple operation mode: Range Extender or Access Point
- Smart Signal LEDs

DAP-1365
*Wireless N300 Range Extender with Power Passthrough*
- Wireless N300 Technology
- Universal Range Extender works with any brand device
- 10/100 Mbps Ethernet LAN port
- Wall plug design with AC Passthrough for more convenience
- One touch configuration
- Multiple operation mode: Range Extender or Access Point
- Smart Signal LEDs

DAP-1665
*Wireless AC1200 Dual Band Access Point*
- Dual Band Wireless AC1200 Technology
- Multiple Operation Modes: AP/Range Extender, Bridge, Bridge with Access Point, Wireless Client
- Gigabit LAN Port
- High Power Wireless Performance with 2 x external antennas
- Universal Range Extender works with any brand device
- Kensington Lock Support

DAP-1360
*Wireless N300 Access Point*
- Wireless N300 Technology
- Multiple Operation Modes: AP/Range Extender, Bridge, Bridge with Access Point, Wireless Client, WISP Client Router, WISP Repeater
- 10/100 Ethernet LAN Port
- Universal Range Extender works with any brand device

DMG-112A
*Wireless N300 USB Range Extender*
- Wireless N300 technology
- Universal Range Extender works with any brand device
- USB connector design allows you to connect to any USB port for power
- One-Touch Mobile App support
- USB Power Adapter supplied
If you have a VDSL/ADSL Internet connection, you can access high-speed Internet with a D-Link Modem Router. Upgrade to a Wireless AC Modem Router for super-powered Wi-Fi to all your devices. Now you can experience uninterrupted video streaming, lightning-quick web pages and much more!

**VDSL Technology**

The demand for broadband (high-speed) connections has grown rapidly over the last few years. Aside from Cable and Fiber broadband, ADSL technology had evolved to the next level – VDSL. Very High Speed Digital Subscriber Line (VDSL2) offers ultra-high data rates of up to 100 Mbps, D-Link combines latest wireless AC technology with VDSL modem router and brings you the future of High-Bandwidth Wi-Fi and Internet connectivity to ensure you the best experience in VoIP, HDTV, and on-line gaming services.

**DSL-2877AL**

**Dual Band Wireless AC750 VDSL2 / ADSL2+ Modem Router**

- Dual Band Wireless AC750 Technology
- Integrated ADSL2+ Modem
- Dedicated Gigabit WAN port
- 4 x 10/100 Ethernet LAN Ports
- 2x USB 2.0 Port for Storage, File Sharing or D-Link 3G/4G Dongle
- Triple WAN Failure (3G/4G, WAN, ADSL)
- mydlink™ apps help you access, manage and view your network remotely
- HomeZone AutoZoning Smart Switching between DSL-2877AL & DMG-112A wireless range extender
- Link with HomeZone AutoZoning to DMG-112A

* *Region dependent.*
DSL-2870A
Dual Band Wireless AC750 VDSL2 / ADSL2+ Modem Router
- Dual Band Wireless AC750 Technology
- Integrated VDSL2 / ADSL2+ Modem
- 3 x 10/100 Ethernet LAN Ports + 1 10/100 configurable LAN/WAN port
- 1 x USB 2.0 Port for Storage, File Sharing or D-Link 3G/4G Dongle
- Triple WAN Failure (3G/4G, WAN, ADSL/VDSL)
- HomeZone AutoZoning Smart Switching between DSL-2870A & DMG-112A wireless range extender
- Link with HomeZone AutoZoning to DMG-112A (refer to page 17)

DSL-2544N
Dual Band Wireless N600 Gigabit ADSL2+ Modem Router
- N600: Connect up to 5 devices
- Dual Band Wireless N600 Technology
- Integrated ADSL2+ Modem
- Configurable LAN/WAN port
- 4 x Gigabit Ethernet LAN Ports
- USB 2.0 Port for Storage, File Sharing or D-Link 3G dongle
- 5 dBi antennas for additional wireless coverage

DSL-2750U
Wireless N300 ADSL2+ Modem Router + USB
- Wireless N300 Technology
- Integrated ADSL2+ Modem
- Configurable LAN/WAN port
- 4 x 10/100 Ethernet LAN Ports
- USB 2.0 Port for Storage, File Sharing or D-Link 3G dongle
- 5 dBi antennas for additional wireless coverage

DSL-2750E
Wireless N300 ADSL2+ Modem Router + USB
- Wireless N300 Technology
- Integrated ADSL2+ Modem
- Configurable LAN/WAN port
- 4 x 10/100 Ethernet LAN Ports
- USB 2.0 Port for Storage, File Sharing or D-Link 3G dongle
- 5 dBi antennas for additional wireless coverage

DSL-2730E
Wireless N150 ADSL2+ Modem Router
- Wireless N150 Technology
- Integrated ADSL2+ Modem
- Configurable LAN/WAN port
- 4 x 10/100 Ethernet LAN Ports
- 5dBi antenna for additional wireless coverage

DSL-2700U
Wireless N150 ADSL2+ Modem Router
- Wireless N150 Technology
- Integrated ADSL2+ Modem
- Configurable LAN/WAN port
- 1 x 10/100 Ethernet LAN Port
- 5dBi antenna for additional wireless coverage

DSL-526E
USB / Ethernet ADSL2+ Modem Router
- Integrated ADSL2+ Modem
- Multiple Operation Mode - Use as a Router with Firewall or a Bridge Modem
- 1 x 10/100 LAN Port
- 1 x USB 2.0 LAN Port
- Power Button

QUICK TIP
Whether you're connecting 5 or 25+ devices in your home, upgrade to a Wireless AC Modem/Router for the fastest Wi-Fi speed and the widest range and coverage that's available on the market today. Simply look for the Wireless AC logo.
Wireless Adapters

Upgrade your computer’s wireless connection in seconds with a network adapter. These days, desktop PCs and notebooks come with wireless technology built-in, but that doesn’t make network adapters redundant. You might, for example, want to add wireless networking to an older PC or upgrade a notebook to use the latest Wireless AC technology and security. Our range of adapters includes PCI adapters designed to fit inside standard desktop PCs and servers, and USB adapters which can generally be used with any, or all of these devices.

- Wireless N150 Technology
- Backwards compatible with IEEE 802.11b/g/n devices
- USB 2.0 Connector
- Wi-Fi Protected Setup (WPS) Push Button for easy connection to a Wi-Fi network

DWA-121  Wireless N150 Pico USB Adapter
- Wireless N150 Technology
- Backwards compatible with IEEE 802.11b/g/n devices
- USB 2.0 Connector
- Ultra mini size
Switches

D-Link offers energy efficient Fast Ethernet and Gigabit switches, ranging from 5 to 24 ports, to extend your home or small office network.

D-Link switches provide plug-and-play connectivity for easy setup and installation.

Featuring **802.3az Energy Efficient Ethernet**, which saves energy and reduces heat automatically without sacrificing performance or functionality, D-Link switches optimizes power usage for each port by the length of cable connected to it, and put the ports that are inactive and do not have a device attached in standby mode, saving a substantial amount of power.
DGS-1008P
8-Port Gigabit Ethernet Desktop Switch with 4 PoE Ports
- 8 x Gigabit Ethernet ports (Port 1-4 supports 802.3at PoE+)

PowerLine AV

PowerLine AV also known as Home Plug AV, transmits data on the electrical wiring and does not require any new network cables. It is ideal for connecting home network entertainment components normally located near a power outlet.

Any Ethernet-ready devices, such as Broadband routers, computers, HDTV, digital video recorders, game consoles, Internet cameras and print servers can be added to a home network. All of the D-Link PowerLine AV product range comply with the HomePlug AV or AV2 certification.

* The plug is country dependent.

Extend Your Network Coverage with D-Link Powerline Solution

DHP-W611AV

How it works - With the PowerLine Wireless AC1200 Gigabit Starter Kit, getting whole-home coverage is fast and easy.

1. Simply connect the PowerLine adapter to your router’s Ethernet port and plug it into a power outlet to turn every other outlet in your home into a possible network connection.
2. Plug the wireless extender into an outlet in a different part of your home to extend your Wi-Fi or wired network to the hard-to-reach areas of your home like upstairs bedrooms, basements and outdoor patios.
GREEN TECHNOLOGY

D-Link powerline are built with Green technology which can save up to 85% power when there is no data transmission over a period of time. Not only does it help to save the environment, it also helps to save your pocket too.

Quick Tip: Do You Know You can use Multiple Powerline to Extend Even Further?
**CONNECTIVITY | PowerLine AV Starter Kit**

**DHP-P701AV**

**PowerLine AV2 2000 Gigabit Adapter with Passthrough Starter Kit**

- PowerLine AV2 2000 technology for up to 2000Mbps throughput
- Gigabit LAN port
- Simple Connect button for secure connectivity between other Powerline devices
- Wall-Plug design for more convenience
- Multiple Input Multiple Output (MIMO) Technology
- Quality of Service (QoS)
- Power Saving features
- AC Passthrough Socket

**DHP-W611AV**

**AC1200 AV2 1000 WiFi Powerline Extender with Passthrough Adapter Starter Kit**

- PowerLine AV2 1000 technology for up to 1000Mbps throughput
- Multiple Input Multiple Output (MIMO) Technology
- Wireless AC1200 Access Point
- AC Passthrough Socket
- Gigabit LAN port
- Simple Connect button for secure connectivity between other Powerline devices
- Wall-Plug design for more convenience
- Power Saving Features

**DHP-701AV**

**PowerLine AV2 2000 Gigabit Adapter Starter Kit**

- PowerLine AV2 2000 technology for up to 2000Mbps throughput
- Gigabit LAN port
- Simple Connect button for secure connectivity between other Powerline devices
- Wall-Plug design for more convenience
- Multiple Input Multiple Output (MIMO) Technology
- Quality of Service (QoS)
- Power Saving features

**DHP-601AV**

**PowerLine AV2 600 Gigabit Adapter Starter Kit**

- PowerLine AV2 600 technology for up to 1000Mbps throughput
- Gigabit LAN port
- Simple Connect button for secure connectivity between other Powerline devices
- Wall-Plug design for more convenience
- Single Input Single Output (SISO) technology
- Quality of Service (QoS)
- Power saving features
DHP-WP313AV

AC600 AV500 WiFi Powerline Extender and AV500 Mini Powerline Adapter Starter Kit

- PowerLine AV500 technology for up to 500Mbps throughput
- Wireless AC600 Access Point
- Simple Connect button for secure connectivity between other PowerLine devices
- Wall-Plug design for more convenience
- Power saving features

DHP-P308AV  +  DHP-W312AV

DHP-W311AV

N300 AV500 WiFi Powerline Extender and AV500 Mini Powerline Adapter Starter Kit

- PowerLine AV 500 technology for up to 500Mbps throughput
- Wireless N300 Access Point
- Simple Connect button for secure connectivity between other PowerLine devices
- Wall-Plug design for more convenience
- Power saving features

DHP-P308AV  +  DHP-W310AV

DHP-W313AV

AC600 AV500 WiFi Powerline Extender and AV500 Mini Powerline Adapter Starter Kit

- PowerLine AV500 technology for up to 500Mbps throughput
- Wireless AC600 Access Point
- Simple Connect button for secure connectivity between other PowerLine devices
- Wall-Plug design for more convenience
- Power saving features

DHP-P308AV  +  DHP-W312AV

DHP-WP311AV

N300 AV500 WiFi Powerline Extender and AV500 Mini Powerline Adapter Starter Kit

- PowerLine AV500 technology for up to 500Mbps throughput
- Wireless N300 Access Point
- Simple Connect button for secure connectivity between other PowerLine devices
- Wall-Plug design for more convenience
- Power saving features

DHP-P308AV  +  DHP-W310AV
Network Interface Card

The Network Interface Card (NIC) allows computers to communicate over a computer network via UTP Cables. It provides 100Mbps, 1Gbps and 10Gbps connectivity for data transmission in a network.

**DXE-820T**
PCIe Dual Port 10G Ethernet Adapter
- 2 x 100/1000/10000 Mbps
- PCIe x8/x16 slot
- 802.1Q VLAN tagging, 802.3x Flow Control, 9KB Jumbo frame, SNMP Agent
- NIC partitioning, 802.3ad teaming, Smart Load Balancing teaming, QoS
- Checksum offloading
- IEEE 802.3 az Energy Efficient Ethernet (EEE) power saving mode
- Up to 40 Gbps full duplex throughput

**DXE-810T**
PCIe 10G Ethernet Adapter
- 100/1000/10000 Mbps
- PCIe x4/x8/x16 slot
- 802.1Q VLAN tagging, 802.3x Flow Control, 16KB Jumbo frame, SNMP Agent
- Checksum offloading
- Support 20 Gbps full duplex throughput

**DGE-560T**
PCIe Gigabit Ethernet Adapter
- 10/100/1000 Mbps
- PCI Express v1.1
- “Hot-Plug” Support
- 802.1p Priority Encoding, 801.1Q VLAN Tagging, 9KB Jumbo Frame
- Wake-on-LAN, Remote Boot (PXE/RPL)
- IEEE 802.3az Energy Efficient Ethernet (EEE) power saving features
- Low Profile Bracket Included

**DGE-528T**
PCI Gigabit Ethernet Adapter
- 10/100/1000Mbps
- PCI Local bus 2.3
- 802.1p Priority Encoding, 802.1Q VLAN Tagging, 7KB Jumbo Frame
- Wake-on-LAN, Remote Boot (PXE/RPL)
- Power saving features
- Low Profile Bracket Included

**DFE-520TX**
PCI Fast Ethernet Adapter
- 10/100Mbps
- PCI Local Bus 2.2
DCS-2802KT
Wire-free Outdoor IP65 Weatherproof IP Camera

Smart Home, Made Brilliant

The mydlink™ Pro DCS-2802KT is a bundle consisting of two DCS-2800LH Wire-Free Camera and DCS-H100 Wi-Fi Hub for SOHO surveillance applications.

The DCS-2800LH is a compact wireless network battery camera suitable for day-time and night-time outdoor environments. It features built-in night vision, motion detection, and a free mobile app — so you can feel at ease when you’re away from home.
Home Monitoring Solutions

D-Link’s range of Network Cameras help you to monitor what matters most, 24/7. Get free remote viewing on your smartphone, tablet or computer so you never miss a moment.

Stay Connected to What Matters Most

The mydlink™ app allows you to quickly and easily view your live mydlink™ enabled camera feeds and manage your mydlink™ enabled routers from anywhere with an Internet connection. Whether you’re at the office, having an evening out, or away on holiday, the mydlink™ Lite app gives you access to your mydlink™ enabled camera, router and Network Video Recorder, even when you’re on-the-go.

You can also check your mydlink™ enabled router’s current upload/download bandwidth, or manage your wireless network security and status. Parental controls let you see what sites your children have visited when you’re away, and you can even block or unblock network access for individual devices.

Features

- View live video from your mydlink™ enabled camera, including a full-screen view. Tablet users may purchase the mydlink™ + app for multiple camera viewing
- Supports H.264 video streaming for smooth high-quality video (specific models only)
- Listen to audio from your camera’s microphone (audio-enabled models only)
- Save snapshots of your camera’s video to your Smartphone, tablet or computer
- View the online status of your mydlink™ enabled cameras and mydlink™ enabled routers
- Remotely monitor and configure your mydlink™ enabled routers
- Access and view your camera’s video feed (without audio) through your NVR
- Supports a remote viewing period of five minutes in relay mode. Helpful 60 seconds left countdown timer
- Touch and drag to move your view around for non-PT cameras. Pinch screen to zoom in and out
- Toggle cameras’ view modes between night mode, day mode and automatic mode
- Talk back with 2-way audio support (selected models only)
- After initial setup on the mydlink™ website, you can enable or disable the motion/sound detection from the app for supported cameras

Your Home, Only Smarter

NEVER MISS A MOMENT WITH CLOUD RECORDING
- Save motion and sound-triggered video footage to the cloud, and watch it anywhere, anytime
- Find any clip you want by filtering your recordings by Event Type, Date, Device, and Location

WORKS WITH THE GOOGLE ASSISTANT, ALEXA, & IFTTT
- Got your hands full? Let your voice do the heavy-lifting with the Google Assistant and Amazon Alexa. You can bring up live-views from a camera on your Chromecast and Echo Show, or turn your lights, fans, and other appliances on or off with the power of your voice
- Need help staying on top of things? There’s an IFTTT Applet for that. With support for IFTTT, you can automatically receive emails when a camera detects motion or sound, or created interaction with compatible 3rd party devices.

SEE HOW MUCH ELECTRICITY YOUR APPLIANCE IS USING
- Monitor appliance energy usage with automated alerts to your mobile device
- Automatically turn off devices that exceed set power limits

FORGOT TO SWITCH OFF THE CURLING IRON AND THE LIGHTS?
- Switch multiple appliances on or off with One Tap, whether you are at home or away
- 6 customizable scenes for common household routines

SET IT AND FORGET IT WITH SCHEDULING
- Wake up to freshly-brewed coffee every morning
- Walk into your brightly-lit home every evening after work

NEED MULTIPLE CAMERA-VIEWS AT A GLANCE?
- We’ve got you covered with MultiView. Now you can view multiple cameras’ feeds at the same time
- Get a quick overview of what’s happening around the house
4G LTE ROUTER

Access And Share Broadband Connection
Anytime, Anywhere

- Up to 150Mbps Downlink / 50Mbps Uplink
- Dual Band Wireless 802.11 AC speeds up to 1200mbps
- 2 x External Removable LTE Antennas
- 4 x Gigabit LAN ports
- Built-in SIM Card Slot
- Internet failover (WAN/3G/4G)
- Improved Coverage

DWR-953
4G LTE Router
with SIM Card Slot

Network Video Recorder

D-Link Network Video Recorder puts surveillance control and management into the hands of small business and home users with a cost-effective DIY solution, with the arise of IP camera demand, network recording is compulsory in a complete surveillance solution. D-Link NVR series is ideal for small business owners deploying D-Link IP network cameras for security and surveillance needs. Thanks to mydlink Network Video Recorder, it offers a standalone solution for multi-camera viewing, recording and playback. When coupled with D-Link's powerful and secure mydlink cloud service platform, small business owners can stay vigilant 24/7 with the ability to record and store videos locally and access remotely via mobile devices or any web browser with no additional costs or fees.

DNR-322L HW B
mydlink™ 2-Bay Network Video Recorder
- Reliable network camera surveillance recorder for home and small businesses
- View and record real-time video from up to 16 cameras remotely via the Internet
- Effortless network camera discovery, setup and management
- Continuous recording with automatic overwrite function
- Live monitoring includes multi-camera, fullscreen, glance, pan/tilt/zoom control
- Calendar search and video preview before playback

DNR-312L
mydlink™ 1-Bay Network Video Recorder with HDMI
- Reliable network camera surveillance recorder for home and small businesses
- View and record real-time video from up to nine cameras remotely via the Internet
- Effortless network camera discovery, setup and management
- Continuous recording with automatic overwrite function
- Live monitoring includes multi-camera, fullscreen, glance, pan/tilt/zoom control
- Calendar search and video preview before playback
- Standalone operation with HDMI output

DNR-202L
mydlink™ Camera Video Recorder
- Reliable network camera surveillance recorder for home and small businesses
- View and record real-time video from up to four cameras remotely via the Internet
- Effortless network camera discovery, setup and management
- Continuous recording with automatic overwrite function
- Live monitoring includes multi-camera, fullscreen, glance, pan/tilt/zoom control
- Calendar search and video preview before playback
D-Link Apps

Discover which mydlink™ app is right for you.

D-Link Wi-Fi app gives you the power to manage your D-Link wireless network using your smartphone or tablet even without touching your computer, just download and managed your wireless network in the palm of your hand.

You can download the mydlink™ apps from the Apple App Store, Google Play or Windows Store (where applicable).

Automate Your Home with mydlink™ Connected Home

Works with mydlink® Smart Devices

DCH-G022
mydlink™ Connected Home Hub

Product Highlights
- Works with mydlink Smart Home devices
- Wirelessly pair mydlink Z-Wave devices with the push of a button
- Get your mydlink and Z-Wave devices talking to each other

DCH-Z112
mydlink™ Z-Wave Door/Window Sensor

Product Highlights
- Attach to a door or window in a key area of your house, and switch your lights or cameras on or off whenever it is opened or closed
- Connect to your mydlink Connected Home Z-Wave gateway using D-Link’s unique protocol, ensuring optimal compatibility
- Use the intuitive mydlink Home app for your smartphone or tablet to get your home automated in a matter of minutes

DCH-Z122
mydlink™ Z-Wave Motion Sensor

Product Highlights
- Attach to a wall in a key area of your house, and switch on your lights or mydlink-enabled cameras whenever someone is nearby
- Connect to your mydlink Connected Home Z-Wave gateway using D-Link’s unique protocol, ensuring optimal compatibility
- Use the intuitive mydlink Home app for your tablet or smartphone to get your home automated in a matter of minutes

DCH-Z510
mydlink™ Z-Wave Home Siren

Product Highlights
- Attach to a wall and power-up the siren, with 6 different sound built-in. It will give the user a loud 110dB siren when the contact sensor or motion sensor is triggered.
- Connect to your mydlink Connected Home Z-Wave gateway using D-Link’s unique protocol, ensuring optimal compatibility
- Use the intuitive mydlink Home app for your smartphone or tablet to get your home automated in a matter of minutes

Your Home, Only Smarter.

Smart • Safe • Secure with mydlink™
D-Link provides a range of compact designed, plug and play mobile broadband routers that fit easily in your pocket or purse, as well as a range of high-power devices for your home or business application. You can leave your mobile device chargers at home, as some of our portable routers can also be used as a USB charger to power your gadgets, including power-hungry devices like an iPad. You can setup your own wireless network on the go, or share pictures, music, video and files easily with the mydlink™ SharePort app.
